

JobPathFinder

Wandering around the Jobsphere!!

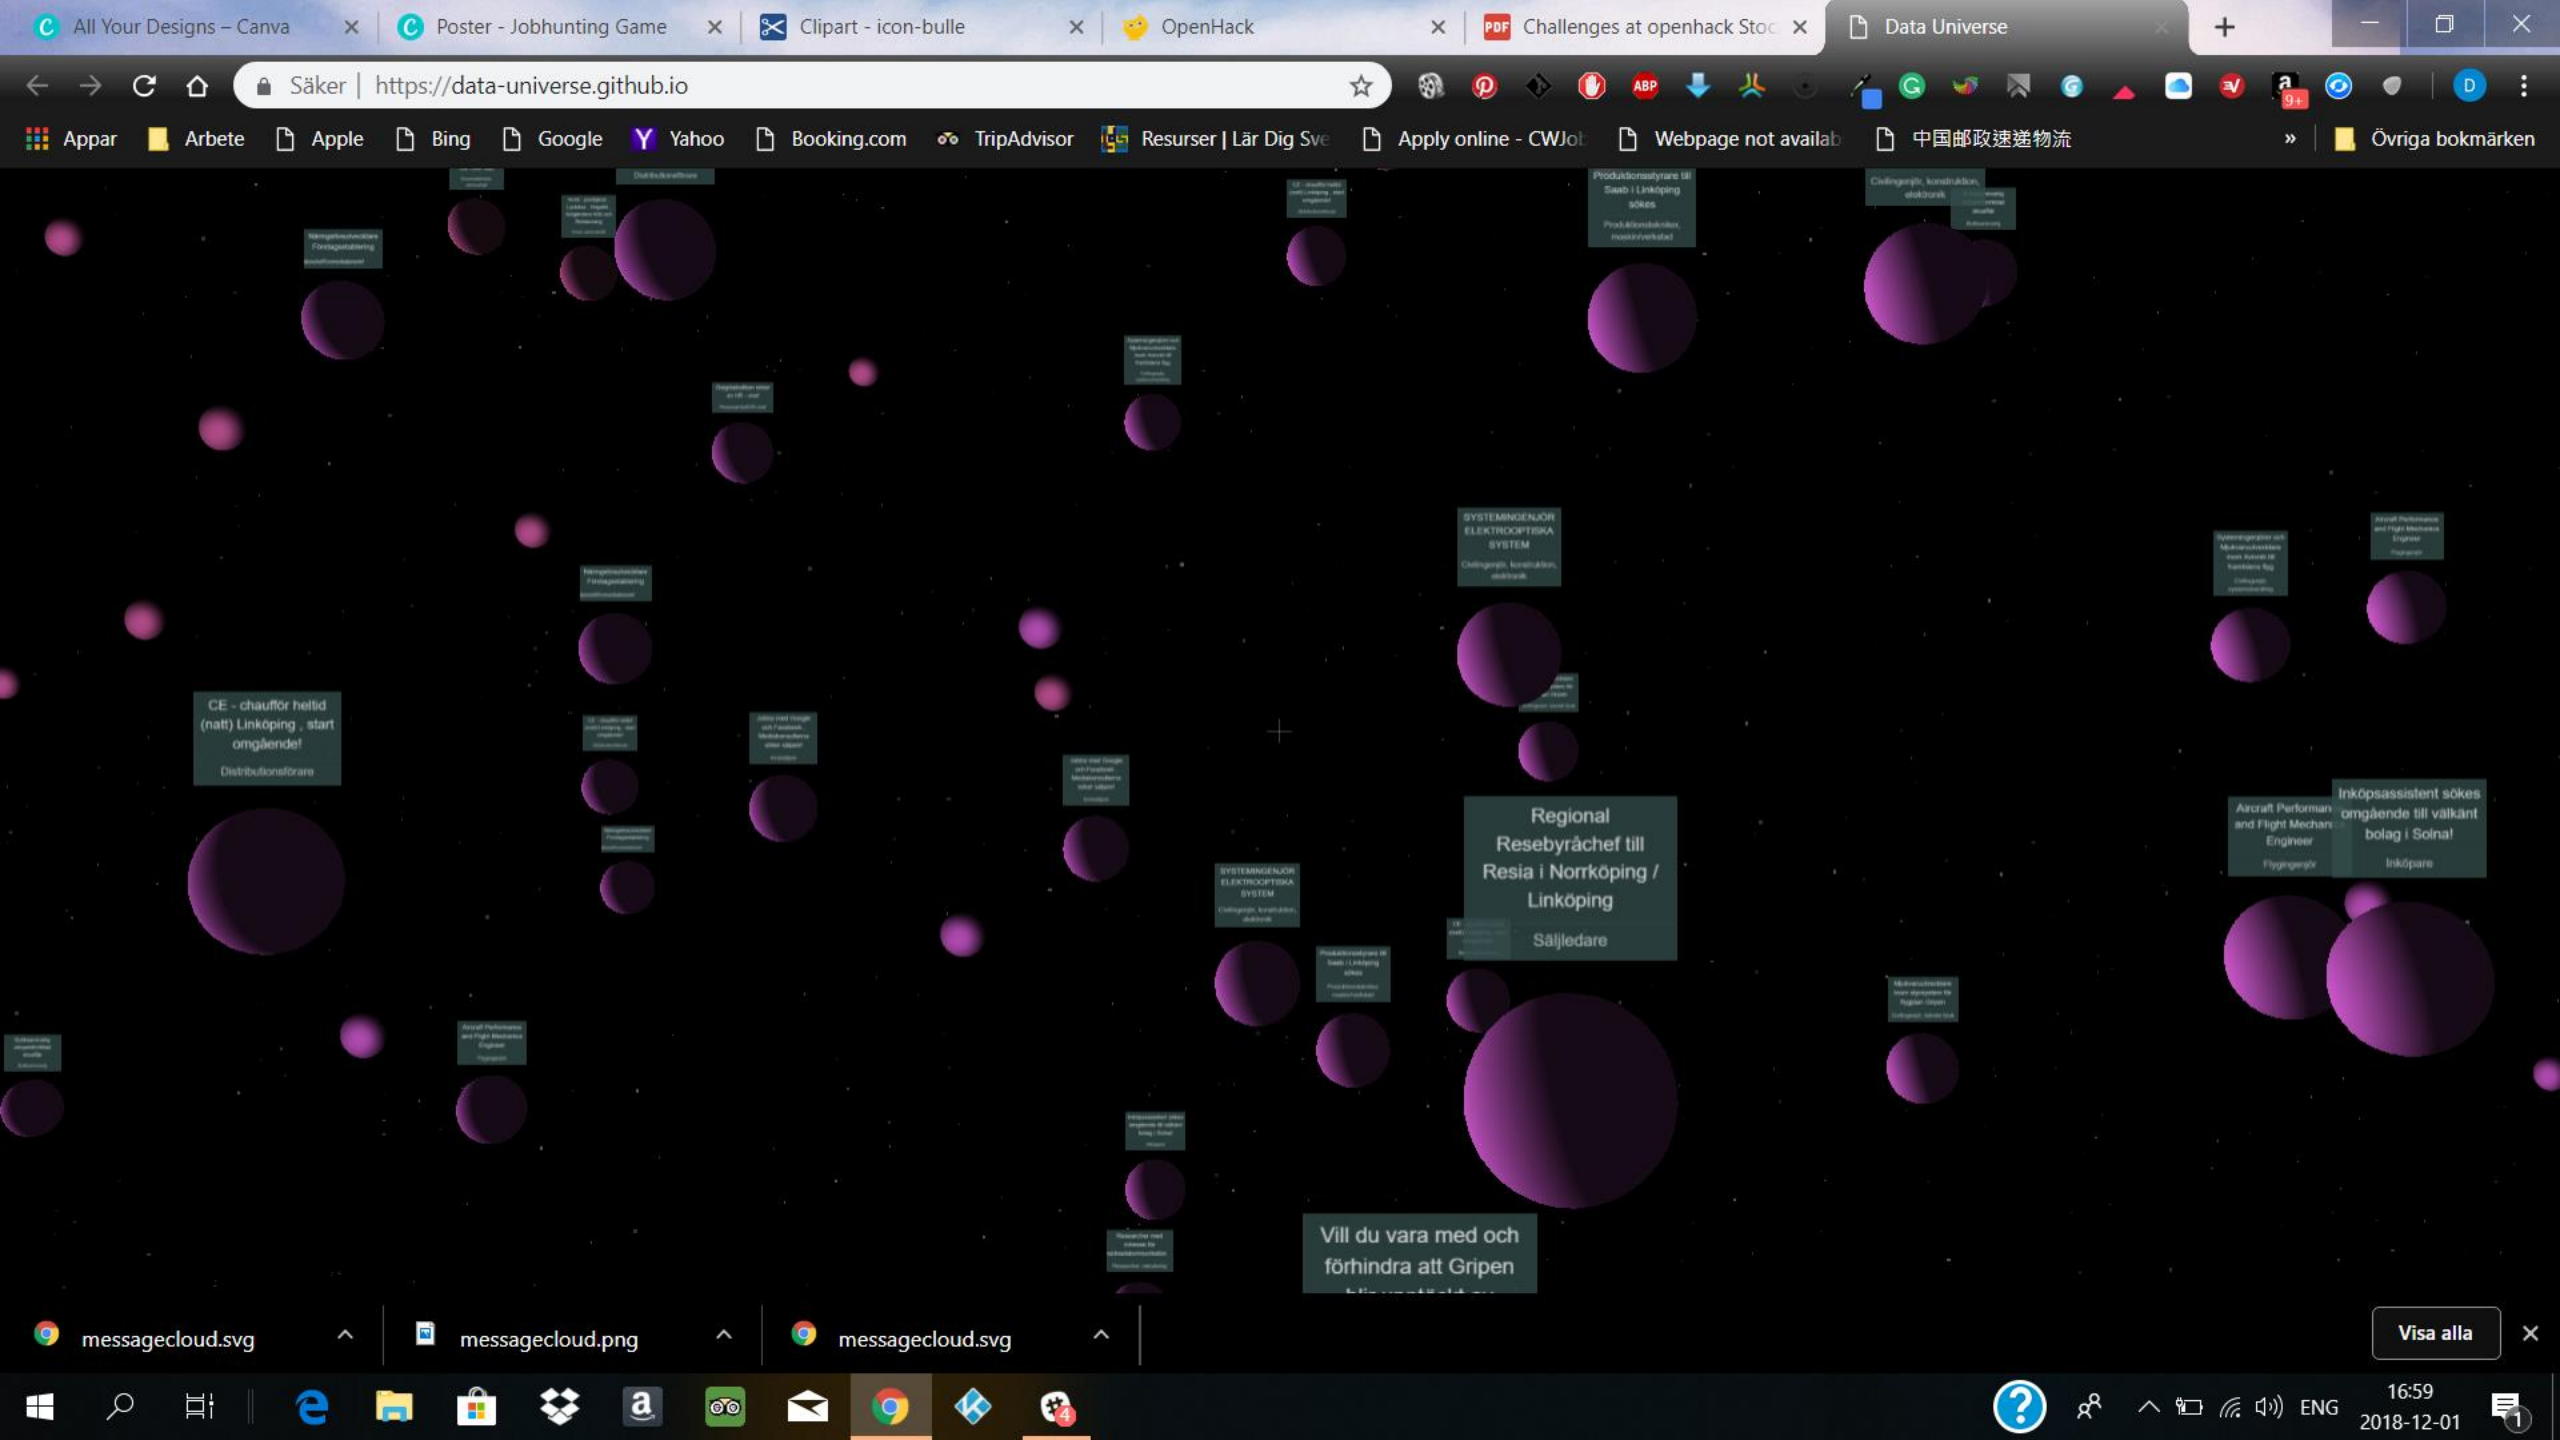

Pilot: Dimitrios Tsamis, a JobsNaut who had so many jobseeking quests in his life.

CoPilot: An inspired jobseeker searching for an exciting job.

So.. How can we achieve better
visualization of the jobs world using
information exchange between
jobseekers, Unemployment Office
and Employers?

User gets the important information not only about the job but also about the application process!

The first step is there, the users takes it and the handler at the Unemployment Office is immediately informed.
"Send CV – Check!"

As soon as an answer has been received by the potential employer, the handler is again informed by the job seeker.

The user is already half way there! The peak is even closer and the next step is more exciting than ever.

Now the user knows:
Each step taken...

Hackersoft LTD

- Driving Licence Required.

... the peak has
finally been
conquered and a
nice job begins
from Monday!!!!
